# SABIKUN ALAM

01895654284 · alam.sabikun04@gmail.com · linkedin.com/in/sabikun027 · github.com/SabikunEthika · Dhaka, Bangladesh

## EDUCATION

**Ahsanullah University of Science and Technology (AUST)** — B.Sc. in CSE (Current Semester: 3.2) Expected 2027
Tejgaon, Dhaka

**Ideal School & College** — Higher Secondary Certificate (HSC)- GPA 5.00 2021
Motijheel, Dhaka

**Ideal School & College (Banasree Branch)** — Secondary School Certificate (SSC)- GPA 5.00 2019
Banasree, Rampura, Dhaka

## TECHNICAL SKILLS

**Languages** — C, C++, Java, JavaScript, TypeScript, Python, PHP
**Frontend** — React, Next.js, Vite, Tailwind CSS, React Bootstrap, React Router
**Backend** — Node.js, Express, NestJS, Laravel, ASP.NET Core, FastAPI
**Databases** — MySQL, MongoDB, PostgreSQL, MariaDB, Prisma, Entity Framework Core
**Tools & Platforms** — Git, GitHub, Docker, Postman, VS Code, Visual Studio, Vercel, Stripe API, JWT, Google Gemini API
**Spoken Languages** — English, Bangla

## CORE SKILLS & QUALITIES

**Leadership & Ownership** — Founded and grew a successful independent book venture.
**Event Planning & Coordination** — Organized school and college events, including a literature quiz competition with an external college.
**Teamwork & Collaboration** — Collaborated on software projects, events, and student initiatives to achieve shared goals.
**Communication & Public Speaking** — Participated in thesis writing, essay writing, and public speaking competitions.
**Initiative & Self-Directed Learning** — Built five independent full-stack projects involving AI integration, payment systems, and optimization.

## SOFTWARE PROJECTS

**ResumeOrbit — AI-Powered Resume Analyzer | React, TypeScript, Python, FastAPI, Google Gemini API**

- Built an AI-powered resume analyzer that evaluates resume quality and matches resumes against job descriptions to help users identify areas for improvement.
- Integrated Google Gemini API to generate feedback on resume strengths, weaknesses, relevant skills, skill gaps, and job-specific requirements.
- Implemented ATS-oriented feedback, file validation, and support for PDF and DOCX resume uploads.
- Generated downloadable PDF reports containing analysis results and actionable recommendations.

· GitHub: https://github.com/SabikunEthika/AI_ResumeAnalyzer

**GetTally — Chat-Native Order & Earnings Tracker for Small Online Sellers | Next.js, NestJS, TypeScript, PostgreSQL, Gemini API**

- Built a chat-native, voice-first order tracker so sellers can paste Messenger conversations or record voice notes instead of manual data entry
- Used Google Gemini to extract order details from pasted conversations, with seller confirmation before saving
- Implemented local Bangla/Banglish/English speech-to-text with whisper.cpp, plus revenue, profit, and sales-trend dashboards

· GitHub: https://github.com/SabikunEthika/GetTally

**CareMeds — Online Pharmacy & Medicine Delivery Platform | Laravel, React, TypeScript, MySQL, Stripe**

- Built the backend for a full-stack medicine ordering platform using Laravel and MySQL, migrating core modules from raw SQL to Eloquent ORM
- Implemented secure authentication with Laravel Sanctum, including email verification and password reset via Gmail SMTP
- Integrated Stripe for online payments, handling the flow from cart to checkout
- Collaborated in a team using Git branching/merge workflows, contributing to backend logic and parts of the React/TypeScript frontend
- Live: https://care-meds-sd.vercel.app/

· GitHub: https://github.com/SabikunEthika/CareMeds

**Ed-Bridge — Academic Resource Sharing & Student Collaboration Platform | React, ASP.NET Core, MySQL/MariaDB**

- Contributed to a full-stack platform combining resource sharing, notes, and student discussions into one workspace
- Worked with JWT-based authentication and Swagger/OpenAPI-documented REST endpoints
- Live: https://ed-bridge-mu.vercel.app/

· GitHub: https://github.com/SabikunEthika/Ed-Bridge

**GridWise Energy Optimizer — Optimization & Decision-Support App (BUP 2026 Project Showcase) | Python, FastAPI, Gemini API, Docker**

- Built an API-based decision-support tool combining generative AI with mathematical optimization (PuLP + COIN-OR CBC solver)
- Containerized the application with Docker for reproducible deployment
- Live: https://gridwise-bup-2026-i1n0.onrender.com/docs

· GitHub: https://github.com/SabikunEthika/GridWise-Energy-Optimizer

## HARDWARE PROJECTS

**Smart Medicine Reminder and Automated Dispenser**

**Software:** Arduino IDE, Proteus

**Hardware Tools:** Arduino UNO, Breadboard, Buzzer, Servo Motor, Jumper wires, LED lights, Push buttons,16x2 LCD Display with I2C adapter, Ultrasonic Sensor, Real time clock module (DS3231
AT24C32 I2C)

**Description:** Developed an Arduino-based smart medicine reminder and automated dispensing prototype featuring three dedicated medication chambers for scheduled doses. Integrated a DS3231 RTC for time-based reminders, an ultrasonic sensor for contactless hand detection, and servo motors for automated chamber access. Implemented buzzer and LED alerts, LCD-based time and status display, and medication access tracking logic. Designed and simulated the circuit using Proteus before hardware implementation.

## EXPERIENCE

**Founder** — Wingardium Leviosa (Independent Book Business)
- Founded and ran an independent book-selling business from the ground up

**Event Management Coordinator** — Ideal School & College, St. Joseph Higher Secondary School
- Helped plan and manage school & college events, coordinating logistics and on-the-day execution
- Organized a literature quiz competition in collaboration with St. Joseph College, managing logistics and participant coordination

## EXTRACURRICULAR

- Campus Ambassador — STC (Student & Tourism Care) presents "Think of Career" Competition
- Campus Ambassador — Adventure Resumption 1.0, organized by Notre Dame Outward Bound Adventure Club
- Campus Ambassador — Vinnorup presents "Caza de Talento 1.0", powered by Torun
- Campus Ambassador — Echo 1.0 International Speaking Contest
- Participated in the Argumentative Thesis Writing Competition, organized by Elevate X
- Participated in the Amitrakkhor essay writing competition, organized by Pencil Foundation
- Participated in the 1st Ablaze Barrier Online Festival, organized by Ablaze Barrier
- Participated in several hackathons organized by BUP, IUT & AUST
